

Icon

Compact and powerful with very low glare, an architectural favourite

Product Code: ICN-REC-W2790-1200-WDE-WHT-R-DMX

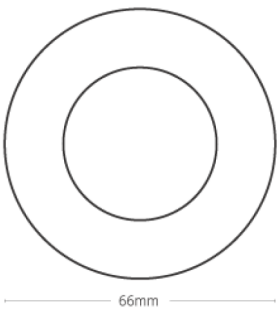

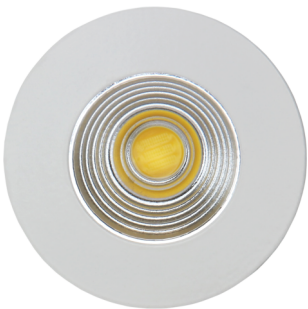

Icon was designed for use in architectural projects where small fixtures are desirable. Commonly used in hospitality and resort projects the Icon is also perfectly suited to residential and commercial applications.

Two beam spreads allows you to customise the fitting to suit your space and ceiling height. Icon is an easy choice for projects where good lux levels and glare control are important.

Australian made, using premium LEDs and ultra efficient reflectors, Icon is an innovation in electronics, thermal management and beam control.

LED Colour	White
CCT/Wavelength	2700K
Delivered Lumens	1040lm
Luminaire Power	9.2W
Connected Load	10.5W
Drive Current	270mA
Forward Voltage	34VDC
Typical CRI	90+
LED Performance	L90 >55,000hrs
Mounting	Recessed
Beam Option	Wide (60°)
Finish Colour	White
Driver Placement	Remote
Control	DMX
Build Material	Machined Aluminium
Luminaire IP Rating	IP20 (IP54 & IP65 available)
Dimensions	66mm (trim diameter), 53mm (body diameter), 98mm (height)
Hole Cut Out	56mm
