

Micro

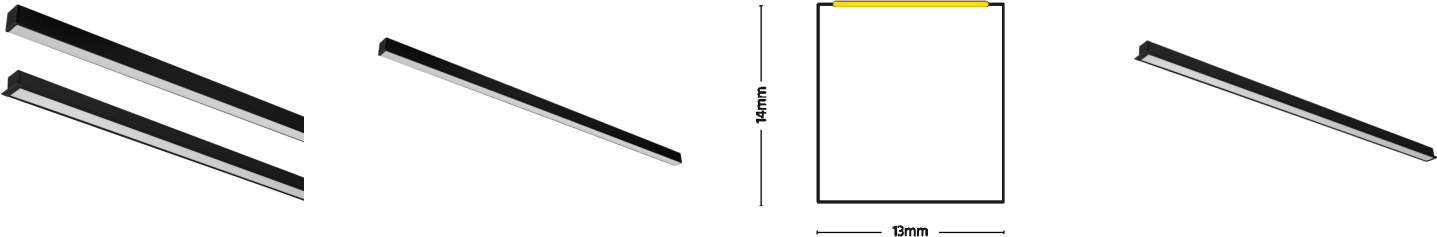

Micro sized linear systems for tight spaces, perfect for cabinetry and shelving

Product Code: MCR-013-REC-W3090-0900-O-CST

With an extremely compact form factor (13mm width) and a flat diffuser, Micro Linear Systems are well suited to cove and cabinetry lighting. These are the smallest linear systems available for Digilin, designed for when space really matters. These systems can be packaged with Digilin drivers for precision control and ultimate reliability. Micro Linear Systems are manufactured in Australia to custom project lengths and supplied with factory fitted connectors using Digilin's chemical anchor process for easy installation and super durability.
