

OptiFlex 3D

3D Bending flexible IP67 linear wall washer with a variety of precise optics

Product Code: OFL-3D-RGBW3080-1000-OVM-WHT

OptiFlex is a flexible, durable IP67 linear wall-wash system designed for high-exposure exterior and curved architectural applications. This incredible system is capable capable of bending in both the vertical and side planes. Although suitable for exterior use, increasingly we're seeing designers rely on the unique characteristics of OptiFlex to illuminate interior spaces as well, commonly installed in coves and contouring curved architectural elements. Extensive testing of mechanical performance, heat dissipation and material durability ensure these systems are the most durable on the market. OptiFlex is manufactured by an international partner that Digilin has been cooperating with for over 13 years.

Illumination Type	3D Bending (Horizontal & Vertical Bending)				
LED Colour	RGBW				
Channel	Red	Green	Blue	White	Combined
CCT/Wavelength	618-624nm	522-528nm	468-475	3000K	-
Delivered Lumens	150lm	370lm	80lm	400lm	1020lm
Power	24Wm				
Typical CRI	80				
Beam Option	Medium Oval				
Build Material	Silicone				
Finish Colour	White				
Operating Temperature	-40~55 Degrees Celsius				
Module Length	250mm				
Maximum Continuous Feed	2000mm/pc or 5000mm in series				
Minimum Bend Diameter	800mm (horizontal), 400mm (vertical)				
IP Rating	IP67				
IK Rating	IK08				
Dimensions	35mm (width), 25mm (height)				
Weight	1.1kg/m				
Durability	UV, Saltwater, Solvent and Flame Resistant				
Connector Options	Injection Moulded Connectors and End Caps (fitted)				
Mounting Options	Serrated Aluminium - Standard or Flexible (optional adjustable mounting brackets)				

Specifications are subject to change without notice
